

monashees | Investment Intern

Founded in 2005, monashees is a Brazilian venture capital firm active globally that invests in entrepreneurs committed to creating innovative solutions for a new world. We invest in the beginning stages and follow alongside the companies that are revolutionizing markets, creating value, and improving people's lives through technology, such as Petlove, enjoie, Fazenda Futuro, RocketChat, Loft, Loggi, MadeiraMadeira, Neon, Frubana and Rappi.

The Role

We're looking for an A-player to join us as a member of our investment team. You'll help monashees to partner with great tech entrepreneurs, starting when their companies are still young and relatively small – but usually growing tremendously fast. You will support our investment team in all stages of the VC investment cycle: studying relevant trends, researching promising market spaces and building a point of view, supporting in the identification and evaluation of investment opportunities, creating analysis of portfolio companies, and working side-by-side with our associates and partners.

Deal flow: you'll be sourcing new investment opportunities and supporting deep business due diligence on dealflow companies.

Portfolio support: you'll follow the key metrics of portfolio companies, building analysis to bring insights for founders and leadership teams of companies on strategic and tactical themes, studying relevant trends in the markets and keeping up-to-date to developments from our portfolio companies.

You'll start working with a partner and an associate covering specific investment verticals, and also cooperate with other specialized investment teams.

What we look for

Smart and personable: You have a data-oriented mindset, and are an independent critical-analytical thinker, who's creative and intellectually curious. You'll be constantly gathering data, synthesizing analysis, and drawing insights – and you must communicate them effectively, in written and oral forms, internally and externally. You are “good vibes”, easy to work with, have a strong sense of empathy, and possess a rather unique combination of strong hard and soft skills.

Self-motivated and driven: You are comfortable with incomplete information and ambiguity. You have the necessary initiative to thrive in a fast-paced environment, working with responsible autonomy – no formal training and limited supervision are pluses for you. You're also an entrepreneur in spirit, always trying to fix or improve things. You want to be the best version of yourself every day and are determined to reach your goals through hard work and hustle, with no shortcuts.

Passionate and humble: We invest in authentic founders that are passionate about the problems they're trying to solve – and our team is passionate about helping them succeed. You're also a believer in the transformative power of technology, and value the privilege of working alongside bold entrepreneurs that want to change the world. A fast-learner, you welcome feedback, and strive to have an open and prepared mind, while fully recognizing that you'll never know more about the businesses we invest in than the entrepreneurs themselves.

Prerequisites

- Enrolled in a university program in Engineering, Economics, Computer Science, Physics or other related programs, with expected graduation in 2021 or 2022
- Overall understanding of digital business-models combined with the analytical skill-set for data-based evaluation
- Data-cruncher by nature with strong communication skills
- Truly passionate about and familiar with tech, startups, and the VC ecosystem
- Familiarity with Microsoft Office package
- Fluent in English; Spanish is a plus.
- Plus: Programming skills

How to apply

If you're excited about this opportunity because you are passionate about technology, evaluating new trends, markets, businesses, and teams, and working with incredible founders, then let us hear from you. Please fill out this form (<https://absurvey.typeform.com/to/CY6MH4q8>) with your information, and we will follow up quickly if we believe there can be a good fit.
